Re: **Pediatric Education for Prehospital Professionals (PEPP)
Renewal Course**

The PEPP Renewal Course is the newest addition to the PEPP program. It is designed to incorporate a combination of online and on-site components for the provider who wants to expand his or her knowledge of prehospital care for children, and for the provider who wants to renew his or her American Academy of Pediatrics PEPP Course Completion Card. The PEPP Renewal Course is truly a continuing education course as it not only reviews material presented in the initial PEPP Course, but also introduces new material as part of the PEPP Renewal Course curriculum.
