Shock Trauma to Enhanced

Date: November 22, 2005
To: Training Officers, Regional Providers
From: Matt Lawler, CSEMS Training Director *ml*
Re: **2006 Shock Trauma to Enhanced Transition Program Modules**

*The Shock Trauma Technician to Enhanced Transition Program is a program of instruction that approaches new or expanded topic areas curriculum in a CE format. Much of this information was not covered in the Shock Trauma Technician program. The transition program assumes that the ALS provider has a thorough understanding of the objectives that are primarily taught in the Virginia Shock Trauma Technician Curriculum. **This is the CSEMS Council's final offering of transition modules.***
