### MEMORANDUM

**To:** All Regional EMS Councils

**From:** Michael D. Berg  
Manager, Regulation and Compliance

**SUBJECT:** EMS Program Representative Service Area Re-Alignment

---

In our continuing effort to provide the best customer service available to the EMS agencies, localities and providers, the Division of Regulation and Compliance will be making changes to the current EMS Program Representative services areas effective December 1, 2006. The upcoming changes will allow the EMS Program Representative to spend more time with their customers, and less time traveling to meet their customers. This upcoming re-alignment may not affect all service areas.

With this announcement we have included a revised map of the new service areas, a revised Consolidated Test Site service area, and a revised Program Representative Service area by county and city. With regards to RSAF grant reviews, the reviews will be conducted by the EMS Program Representative assigned to the FIPS code for the agency/entity submitting the grant application. This realignment does not affect the current RSAF grant review process (award date of January 1, 2007).

We appreciate your patience during the period of transition. Should you have any additional questions regarding your EMS Program Representative service area, please feel free to call The Office of EMS Division of Regulation and Compliance for more information.
