TRAINING NOTICE

Date: February 13, 2007

To: Training Officers

From: Matt Lawler, CSEMS Council Training Director *ml*

Re: **Local Protocol Instructor Training**

*The Central Shenandoah EMS Council Local Protocol Program provides instruction to EMS providers in the region on specific local protocols that differ from the 1994 release of the Emergency Medical Technician-Basic: National Standard Curriculum. Modules of the curriculum include use of automatic external defibrillators (AED), Combitube airway, EpiPen® Auto-Injector, glucose monitoring and use of glucagon, and administration of aspirin for cardiac emergencies. The Local Protocol Instructor class qualifies individuals to teach the Local Protocol course. **Each agency is encouraged to have at least one instructor to teach initial classes and conduct the required annual reviews.***

Location: Central Shenandoah EMS Council
2312 W. Beverley St.
Staunton, VA 24401

Date: Wednesday, April 4, 2007
